101 N Wolfe St, Apt 314,
Baltimore, MD, 21231

Subject: Offer of Employment – Health Data Analyst

Dear Vincent,

We are pleased to offer you the position of Health Data Analyst at Ukubona LLC, a Virginia-based company focused on public health data science and digital epidemiology.

Start Date: Thursday, March 28, 2025
Salary: $35,000 annually
Location: Hybrid: Remote, reporting to Virginia HQ
Supervision: Directly mentored by Abimereki Muzaale, MD, MPH

Duties:
- Analyze federal/clinical datasets (NHANES, CMS, USRDS, SRTR, etc.)
- Build and refine multivariable Cox regression models
- Contribute to a risk-visualization tools generating Kaplan-Meier survival curves
- Assist in scripting data pipelines (.csv outputs), web tool front-end development (HTML/JS)
- Participate in research planning, analysis, and manuscript writing

We're excited to continue to support your growth in data science and epidemiological practice, as we did when you were our student, teaching assistant, and analyst at Johns Hopkins University. This role matches your STEM background and qualifies under STEM OPT training objectives.

Warmly,

Abimereki Muzaale, MD, MPH
